**Open letter to participants in COMAL 80 Standardization Group.**

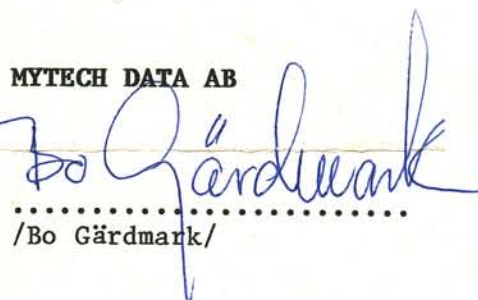

We regret to say that we can not participate in the Standardization and Development Group meeting in Denmark August 1986.

It is Due to the fact that we just got a few day's notice about the meeting. Our COMAL people is on business trip to US and it was not possible to call them back and change theirs schedule within a few days. Hopefully we will get the notice earlier next time.

We hope you will have an productive meeting and look forward to see the report of the meeting.

Best Regards
